Property Address	109 Shumake Ave	Square Footage	3,309 sqft / 2 stories
Service	Post-Construction Final Clean	Investment	Provided Separately

Our Commitment

MINT Cleaning Pros operates under a covenant standard, not a contract one. That means we treat your home like we own it, we own our mistakes, we go the extra mile, and we do what we say. The scope detailed below is what every Post-Construction Final Clean from MINT includes — top to bottom, room by room, surface by surface.

This is detail-level finish work performed after construction is complete and the jobsite has been cleared by trades. Our team works ceiling-to-floor in every room so that no dust settles back onto cleaned surfaces, and every space is finished to a move-in-ready standard.

Whole-Home Detail (Every Room)

The following is performed in every interior space of the home, from the entryway through every bedroom, hallway, closet, living area, and stairwell:

Ceilings & Upper Surfaces

- Ceilings dusted and inspected for construction dust, cobwebs, and debris
- Ceiling fans wiped (blades top and bottom, motor housing, light kits)
- All light fixtures wiped, including bulbs and decorative glass
- Recessed light trims wiped clean of dust and fingerprints
- HVAC vents and return covers vacuumed and wiped
- Smoke detectors and CO detectors dusted
- Crown molding wiped along entire run

Walls, Doors & Trim

- Walls spot-cleaned for construction dust, fingerprints, and smudges
- Door frames, door faces (both sides), and door tops wiped
- Doorknobs, hinges, and hardware wiped
- Window casings, sills, and tracks vacuumed and wiped
- Baseboards wiped along entire perimeter (not just visible runs)
- Chair rails, wainscoting, and any decorative millwork detailed
- Switch plates, outlet covers, and thermostats wiped

Glass & Mirrors

- Interior windows cleaned (glass, frames, tracks, and sills)
- All mirrors cleaned streak-free
- Glass doors and interior glass panels cleaned both sides

Floors

- Hard floors vacuumed, then mopped with appropriate professional-grade solution for the surface (hardwood, tile, LVP, etc.)
- Tile and grout lines detailed; haze and residue removed
- Carpets vacuumed thoroughly, including edges and corners
- Floor transitions, thresholds, and floor vents wiped clean
- Stair treads, risers, banisters, spindles, and handrails detailed

Kitchen — Full Detail

The kitchen receives the most labor-intensive attention in any post-construction final clean. Our scope includes:

Cabinetry

- Cabinet exteriors wiped (faces, sides, tops, and bottoms)
- Cabinet interiors wiped — every shelf, every drawer, including drawer tracks
- Cabinet hardware (knobs, pulls, hinges) wiped
- Toe kicks and under-cabinet trim detailed
- Pantry shelving wiped inside and out, top to bottom

Countertops & Backsplash

- Countertops cleaned (granite, quartz, marble, or other surface treated appropriately)
- Backsplash detailed including grout lines
- Edge profiles and undermount sink rims wiped

Appliances

- Refrigerator: exterior, top, sides, interior shelves, drawers, gaskets, and water/ice dispenser
- Oven and range: exterior, control panel, knobs, interior, racks, and glass
- Cooktop: surface, burners or elements, and surrounding stainless
- Range hood: exterior, filter, and interior surfaces
- Microwave: exterior, interior, turntable, and vent grille
- Dishwasher: exterior face, control panel, gasket, and interior
- Built-in coffee, warming drawer, or specialty appliances detailed (where present)

Sink & Fixtures

- Sink basin scrubbed
- Faucet, sprayer, and any fixtures wiped clean

- Garbage disposal flange and drain wiped
- Soap dispenser and any countertop fixtures cleaned

Bathrooms — Full Detail (Each Bathroom)

Every bathroom in the home receives the following detail work:

Vanity & Cabinetry

- Vanity cabinet exteriors and interiors wiped (every drawer and shelf)
- Countertops cleaned
- Sink basin(s) scrubbed
- Faucet and fixtures wiped clean
- Mirror cleaned streak-free
- Medicine cabinet interior wiped

Shower & Tub

- Shower glass cleaned both sides
- Shower walls scrubbed (tile and grout detailed)
- Shower floor or pan scrubbed
- Showerhead, handles, and fixtures wiped and descaled
- Tub interior, exterior, and surround scrubbed
- Soap niches, shelves, and shower benches wiped
- Drain covers cleaned

Toilet

- Bowl scrubbed inside and out, including under the rim and base
- Tank, lid, and seat (top, bottom, and hinges) cleaned and disinfected
- Floor around base detailed

Bathroom Floors & Walls

- Tile floors mopped and grout detailed
- Baseboards and trim wiped
- Exhaust fan covers vacuumed and wiped
- Towel bars, hooks, and any wall-mounted hardware wiped

Closets, Laundry & Utility

Closets (All)

- Shelving wiped top to bottom, including upper shelves
- Closet rods wiped down
- Floors vacuumed and mopped
- Baseboards and trim wiped

- Doors, frames, and hardware detailed

Laundry Room

- Washer and dryer exteriors, tops, and visible sides wiped
- Detergent shelves and any built-in cabinetry detailed inside and out
- Utility sink (if present) scrubbed
- Floors mopped and baseboards detailed

Utility & Mechanical Spaces

- Floors swept and mopped
- Exposed shelving and surfaces wiped
- Visible dust and construction debris removed

What's Not Included

So that there are no surprises, the following items are not part of the standard final clean scope. Any of these can be added on request — please ask if you'd like a quote.

- Exterior windows (outside of the glass)
- Power washing of exterior surfaces, walkways, or driveways
- Garage cleaning or detailing
- Carpet steam cleaning or extraction (vacuum only is included)
- Hardwood refinishing, buffing, or specialty floor sealing
- Removal of construction debris, leftover materials, or trash hauling
- Cleaning of personal belongings or furniture not yet on site
- Window treatments (blinds, shades, drapery) beyond a light dust

Our Standards & Process

Every MINT post-construction final clean is performed by a trained detail crew using professional-grade products and equipment matched to each surface in the home.

We work top-down (ceiling to floor) so that no surface we've cleaned gets contaminated by falling dust. Each room is finished, then walked back through by a lead before the crew leaves the home.

If anything is missed or not up to standard, we make it right. That's the covenant.
